You can raise the selected area so that it is perfectly selected with the Magic Wand tool. This tool has many settings so that you can achieve the perfect selection around your areas you want to be selected. If you have lots of areas you want to be selected, you can expand your selection area. You can also move a selected area by clicking anywhere in the selected area and then clicking where you want to place it. Select the area inside the eraser. Press D and the selected area will then be erased from the outside to the inside. Now, press Shift+S to reverse, so the outside becomes the inside. To erase the outside to the inside, press D first and then Shift+S, and now press D to erase the inside to the outside.
